

CHRONIC CARE MANAGEMENT

Take your healthcare home

IMPROVE QUALITY OF CARE AND PATIENT ENGAGEMENT WHILE GETTING REIMBURSED

NEXTGEN RPM is specialized in REMOTE PATIENT MONITORING. Our CCM program is designed to improve the health and quality of life for individuals with 2 or more chronic conditions. We will non-invasively monitor patient's biometrics and symptoms, customize a home exercise prescription, and empower patients to manage their conditions while engaging them in their own care needs.

CHARGE CAPTURE

Your practice will increase revenue without adding staff, work flow, or cost.

NO CONTRACTS OR OBLIGATIONS

PATIENT OUTCOMES

Care compliance, educational needs, and gaps in care identified in each patient.

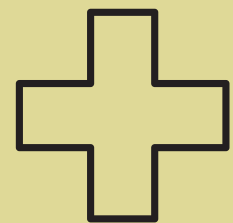

REPORTING

We collect and analyze patient's biometric data while monitoring symptoms. Monthly reports will be sent to your office - **alerts are sent the moment a critical value appears.**

MULTIDISCIPLINARY STAFF

Nurses, Exercise Physiologists, Dieticians, & more.

INDIVIDUALIZED CARE PLANS

Every patient has different needs. We custom-build an easy to follow care plan for every patient.
